

#### Fluid Homepages in PeopleSoft Financials

PeopleSoft Financials introduced a new Fluid User Interface in Release 5.30. The Fluid Interface is designed to adapt easily to various devices, including mobile phones and tablets.

The Fluid homepage, pictured below, replaces the Classic homepage that displayed the navigation menu on the left side. Beginning with Release 5.30, all users will land on the Employee Self Service homepage pictured below.

**Note:** The tiles present on the homepage depend on your security access and institution's transaction use.

The menu that was previously located on the left side of the homepage will now be accessed from the Navigation Bar (NavBar), located in the top right corner of the page. For more information on how to use the NavBar, see the PeopleSoft Financials Fluid User Interface videos on the Georgia *FIRST* website: <u>http://www.usg.edu/gafirst-fin/training</u>.
